## ***RECREATIONAL SOCCER OVERVIEW***

Our Developmental Recreational League offers boys and girls ages 3 thru 10 the opportunity to play soccer in a structured developmental league. The season includes weekly scheduled practices and games.

The goal of the Program is to provide the best soccer development experience for our children, so they can reach their maximum potential. To attain this objective, the program aims to instill an atmosphere of Enthusiasm and Appreciation for the sport of soccer, to promote good sportsmanship, and to develop the Technical, Tactical, Physical, and Psychological attributes necessary to become quality soccer players. We want to assist all players with ambitions to develop their skills, so that if they want to take their game to the next level, they'll be prepared to make our elite & premiere travel teams.

We will achieve these goals by assisting players to use what they learn at practice sessions and games throughout the program, but also by offering camps and clinics to further develop skills, especially for the individual players that want to take their game to the next level!

Teams are grouped into divisions (U5, U7, U9 & U11) based on age and level of play. All players will be assessed at our assessment dates, with the goal then being to form equally talented teams, to help provide the best experience on the pitch.

Our Developmental League will be offered every Fall (Outdoor), Winter (Indoor), and Spring (Outdoor). We'll offer a progression of trainings, built on each other, throughout the year, to keep dedicated players challenged and learning new skills.
