# ***CROWN / SALISBURY UNITED FUNDAMENTALS OVERVIEW***

**Our FUNDAMENTALS program introduces kids ages 2-6 to soccer and helps them fall in love with the game! This is a year-round monthly membership program that includes multiple opportunities every week (5 to be exact) for your child to play soccer in a fun yet structured environment. Come up to 5 times per week for one low monthly price! The program is intended to be fun first and foremost, with a handful of activities and games with and without soccer balls. All of our FUNDAMENTALS programs are instructed by experienced and knowledgeable coaches, under the direction of SUSC's Player Development Coach, Paul McGladdery.**

**FUNDAMENTALS groups include kids 2-6 years old. Based on attendance any given week groups will be split into skill and age groups. The goal of the FUNDAMENTALS Program is to provide the best soccer development experience for our children, in the most fun environment, so they can learn to love the game and reach their maximum potential. To attain this objective, the program aims to instill an atmosphere of Enthusiasm and Appreciation for the sport of soccer, to promote good sportsmanship, and to create the foundation for the Technical, Tactical, Physical, and Psychological attributes necessary to become quality soccer players. Oh...and if we haven't already said it, for your child to have FUN.**

**Kids that want more soccer will have the opportunity for plenty more! We offer a Recreational/Developmental league for kids 3-10 years old and can be played simultaneously with being in our year-round FUNDAMENTALS program. We also offer player development pathways to our Club and Travel teams for players (and parents) interested!**
