- **Players will receive their jersey at their first game.**
- **For all practices and games, Players will need shin guards, covered by long socks, turf or flat athletic shoes (no outdoor cleats), black soccer socks and black shorts. These are available for purchase at Crown.**

CROWN / SALISBURY UNITED

What makes our program the best?

Let's start with the coaches. All of our developmental teams are coached by experienced and knowledgeable coaches, under the direction of SUSC's Player Development Coach, **Paul McGladdery**, and staff coaches.

Who is Paul McGladdery? Paul is from Lancashire England where he has lived his life for the sport. After playing for 25 years he transitioned into coaching, where he landed with six-time English Champion **Blackburn Rovers FC**. Paul's role within the Rovers was focused on their Academy, with children 5-18 years old. Paul's next stop was **Manchester City FC**, reigning English Premier League champions, where he was focused on their academy and working in their talent identification centers. To put it bluntly, we have one of the most accredited youth player development coaches on the entire East Coast.

Lets talk curriculum. Paul brings with him a technical program to our club. This curriculum has been fine-tuned through his years of academy coaching and experiences. We build on the same philosophies and basics that are being used to create the Premier level of play and players in the FA Premier League.

What about facilities? We are the official in-house club of the region's largest indoor/outdoor

sports complex. A sprawling Bermuda grass pitch alongside 5 indoor turf fields make this the optimum venue for both practice and games. Play and practice rain or shine and enjoy on site amenities such as our café and arcade so that other siblings and parents have activities for them as well! This is a one-stop shop for all things soccer in our region.

Why should my child play with Salisbury United? We put the kids first. Our curriculum is age specific. Our recreational/developmental leagues are geared toward the best possible youth experience. We are focused on helping every child reach their ultimate potential. To that end, we offer a player development pathway that allows kids opportunities to play competitively, regionally, and nationally!
